

COVID-19 PHASE 2—PRACTICE SAFETY GUIDELINES

Listed below are a series of guidelines for teams, coaches, players, and parents when practicing at the Vancouver Girls Softball Fields. More information will be shared at a later date regarding the guidelines for games. Presently, Clark County is in Phase 2, and these are the guidelines that must be followed in order for our teams to practice at the complex. The cooperation of everyone involved will prove critical in helping to ensure compliance. We appreciate your cooperation and understanding.

ALL TEAMS, COACHES, PLAYERS, AND PARENTS

- **Do not attend practice if you are sick or displaying signs of illness.**
- **While practicing—players are limited to groups of five in separate parts of the field, separated by a minimum buffer zone of 6 ft.**
- **You can have a maximum of 3 groups on the field, at different locations on the field, while maintaining social distancing of 6 ft within the groups.**
- **No contact between players and coaches.**
- **Maintain social distancing of 6 ft while on the field, in dugouts, and other areas of the field.**
- **Use sanitizer, disinfectant wipes, etc., making it available to all coaches and players. Use it frequently throughout practice to assist in the efforts to minimize the possible spread of the virus. Please wash your hands before practice, and as soon as possible once you leave the practice field.**
- **Minimize sharing of equipment**
- **No shaking hands, fist bumps, or huddles. Keep 6 ft apart.**
- **Sunflower seeds are not permitted. No spitting of seeds.**
- **Public restrooms are available. They are located next to the parking lot.**

This is **not** an all-inclusive list, but instead a number of measures that can be taken to minimize the potential spread of the virus. These measures are easily implemented and highly effective and should lead to a healthy and safe environment where athletes can play, have fun, and enjoy the game.

Thanks again for your cooperation and understanding.
