

Vision Statement: Maura Martin

I want to help VGSA fulfill its mission to provide playing opportunities for girls at all levels. I want to ensure that we are responsible members of the community. I want to continue to make better business decisions for the organization so VGSA fast pitch can remain financially sound and steady.

When the current board took over, the organization had \$70,000 in the bank. We have grown that to more than \$100,000. We also have increased participation by almost 100 percent. There were approximately 250 girls in playing in 2013. For the past two years, we have had more than 450 girls play.

I want to continue this momentum in a realistic and sustainable way, by growing the organization and maintaining the complex without significantly affecting the reserves.
